The Many Lenses of Conscious Discipline: Looking at Implementation, OOPs Moments, Successes and more through the Lens of Child, Educator and Administrator

We will spend the day exploring the many lenses of practical application, transformational change and intentional implementation through the reflective lens of child, adult and administrator. We will also touch on how implementation will be modified for those who have experienced trauma. Whether you are just starting out or have been practicing Conscious Discipline for years, you will find connections and inspiration to transform your practice as a teacher, administrator, mental health specialist or parent.

Presented by Dr. Bailey and Conscious Discipline (CD) Certified and Master Instructors as well as others touched by the power of CD.
